

MUSILIA

Carbon Fiber Cases

WWW.MUSILIA.COM

Why Musilia?

100% secure

No carabiners are needed! The Musilia Case has built-in strap holders and the nylon strap, which will never break, carries the whole weight of the instrument case.

100% easy to use

Aside from incredible durability, the Musilia Cases have been designed for ease of use as well. The comfort system takes only two minutes to mount.

100% adjustable

The new Musilia Cello Cases feature a central Endpin Block System which is individually adjustable and the violin cases use soft elastic materials which memorize the shape of the instrument.

Why choose a Musilia Case?

- SUPER LIGHT AND SHOCK RESISTANT CARBON FIBER CASES
- COMPACT AND MODERN DESIGN
- REVOLUTIONARY CARRYING SYSTEM
- UNIQUE SUSPENSION SYSTEM
- HIGH QUALITY THROUGH INNOVATION
- SECURE, EASY TO USE, ADJUSTABLE

Endpin Block System

smart & innovative, shock-absorbing, adjustable

Endpin Block System (EBS by Musilia) is revolutionary on the market. It's made of High-Tec aluminium, state of the art carbon fiber and high-performance foam. This unit can be easily adjusted vertical and horizontal to suit your cello. The EBS offers the maximum possible protection for your instrument.

Upgraded for you: Soft and comfortable, easy carrying & fatigue-free improved leatherette handle

New YKK-Neck Clip

with secure & shock-absorbing memory foam pad

Stronger than ever! The new YKK-Neck Clip offers a user-friendly handling and high security. Your instrument will be protected by the shock-absorbing memory foam pad, the perfect suspension for the rigors of travel.

About Musilia cases

Musilia Cases were designed by Peter Chu, a professional cellist from a family of cellists, and have addressed all the familiar issues: weight, safety, nonstandard dimensions, ease of carrying, and even the irritating noise of rattling hardware.

New technologies and carbon forming processes allow Musilia to produce a line of carbon fiber cases that withstands the rigors of travel and protects valuable instruments from damage in even the most stressful situations.

Musilia engineered their cases from scratch to provide unsurpassed protection for the instrument and a new level of comfort for the player. Musilia has put a lot of thought into the extra details that make these cases stand out from the competition. All this and more in one of the lightest cases available anywhere...
